Relentless All-Around Sport Boots are designed for competitors in any discipline who demand the best leg protection for their horses. This is a great looking boot, and the design features provide the ultimate in lower leg protection.

\* 12 month quality and workmanship guarantee

\* Sleek design contours the cannon bone and protects against impact and concussive injuries without bulk.

\* Suspensory strap wraps under the fetlock to provide critical lift and support for suspensory ligaments

\* Boot vase is cut higher in front to match the natural curve of the horse's leg allowing full flex and extension while reducing bell boot interference

\* The size and shape of the taller hind boot was designed to contour to the hind cannon bone

\* Hind boots are taller than front boots for increased slide protection.
