---

- General Tack

---

This is a traditionally designed Stockman's breastplate with the added benefit of leather water bottle carriers attached to either side. There is a patch of sheepskin on the middle chest plate for added comfort for your horse. Due to the shape of the carriers, flask shaped water bottles are better suited to the shape of the carriers. As a tip, freeze the water bottles before hand and you can have cool water for hours on the trail.

Water Bottles Sold Separately.
