I have been working with this lovely gelding for 5 years to bring him around from a fear of people to the point where he is always seeking to connect and interact.

Zeus has amazing athleticism, natural self-carriage and makes any rider look good.

Eager to go on outings alone or with others, Zeus happily hops into the trailer for any adventure.

Zeus has a love for working cattle (green), jumping (green), covering miles on the trail and learning new tricks and skills. He is at his prime for a new career. Working equitation or mountain trail is something we will be practicing in the coming months.

Zeus has a lovely rocking canter along with a ground covering walk, clear trot and very smooth Picada gait.

Never shod, Zeus uses boots when required and has very tough hooves, big solid bone and deep body with substance.
