Ryder Saddlery Zara Dressage Saddle 18" seat M/MW  
Condition is Used.

I am this saddle's second owner. It is approximately 6-7 years old. Ryder did not put serial numbers on their saddles until a few years ago.

It has a hoop tree which is good for those which are rounder through the withers and have big shoulders.

It has a very deep seat and I was told the leather was memel (water buffalo hide).

This saddle new on the Ryder Saddlery website is \$3,000. They are worth every penny.

I found this saddle to be extremely comfortable and correct. It's just not suited for my horse.

There is no damage to the saddle except for two scratches on the pommel and seat. They are pictured. Has absolutely no impact on usability.

Flaps measure 16". From tree nailhead to tree nailhead on the inside is 5 in. From outside to outside nail head it is 7 in.
