*Description

* 3" Rings, 5" Mouth.

* This classic snaffle bit has been the top choice of trainers and riders thru the ages.

* The combination of the slightly weighted ring with an average size 3/8" smooth snaffle makes this bit perfectly balanced for training and every day riding.

* The weight of the ring increases feel for both the horse and rider, giving the horse pre-signals to rein cues and providing clearer communication.

* Sweet iron naturally rusts into a light patina.

* The rust creates a sweet taste for the horse, making the bit more acceptable and increasing salivation for a supple mouth.

Saddle Weight: 0.80 LBS
