Description

The Circle Y Julie Goodnight Wind River Trail Saddle is a great trail saddle because of the soft, Impact Foam seat, already broke in Softee seat jockeys, and ErgoBalance stirrups, all which increase total rider comfort and reduce joint fatigue. The Circle Y Flex2 saddles are designed to include comfort features for both the horse and rider that work in synergy with the Flex2 tree. Only Circle Y has the exclusive Flex2 tree design which uses a rigid ground seat for rider support, a high density bar which disperses rider weight, and low density bar which is against the horse and provides give for freedom of movement. This results in a lightweight saddle that will never get wider over time, flex in half, or overflex to create pressure points if properly fitted.. The Wind River has a round skirt with 3-way In-skirt rigging giving you many rigging options and is great for a horse with a short back. The comfortable impact foam seat makes it easy to spend hours on the trail.
