### Description

4 year old draft cross gelding. 14.2 and still growing. Has spent 90 days in professional training. He requires a professional trainer as he is green and has only been sat on once. Pros.....He is halter broke, leads, ties, lunges, round pens, saddles, loads on a trailer like a dream, and is very smart. Cons.....head shy, does not pick up his feet yet (currently working on that) and has some weird quirks. For example, you can touch him all over with a rope, crop or other object but he is very cautious of people touching him. He will require someone with patience and time. I do not have to time for him to finish his training and his current trainer is leaving for college. Willing to negotiate for the right home for this guy!
